

ODI Conformance Checklist: Content Provider

Content providers are encouraged to take specific measures to assert their conformance with NISO RP-19-2020, the recommended practices of NISO's [Open Discovery Initiative](#). These measures are voluntarily made by each organization, in an effort to increase transparency and communications around pre-indexed or “web-scale” library discovery services. The ODI Conformance Checklist below was created to enable standardized methods for content providers to assert their ODI conformance to libraries, discovery services, and other industry stakeholders.

Market product(s): Wiley Online Products		Date: August 2023	
Organization name: Wiley
