*Immunity, Inflammation and Disease* is a peer-reviewed, open access, interdisciplinary journal, providing rapid publication of cutting-edge research across the broad field of immunology. *Immunity, Inflammation and Disease* gives rapid consideration to papers in all areas of clinical and basic research. The journal welcomes original work that enhances the understanding of immunology in areas including cellular and molecular immunology, clinical immunology, allergy, immunochemistry, immunogenetics, immune signalling, immune development, imaging, mathematical modelling, autoimmunity, transplantation immunology and cancer immunology. Original research articles, methods papers, editorials and commentaries are published. Original research papers must report well-conducted research with conclusions supported by the data presented in the paper.

- High standard, rigorous peer review
- Quality and reputation: supported by Wiley's network of prestigious journals and societies
- Rapid publication
- Open access: freely available on Wiley Online Library and PubMed Central
- Authors retain copyright and articles are published under the Creative Commons Attribution License (CC-BY)
- Fully compliant with open access mandates: meeting the requirements of funding organizations and institutions where these apply
